

THE PENGUIN PROMISE

We Stand Behind Our Work

Tex the Penguin and the team at Airheads HVAC know the importance of keeping our word and standing behind our work. That's why we came up with *The Penguin Promise*:

1. We don't mess around. Whenever we repair something in your home, you get a one-year warranty on our work. We promise that if any repair is found unsatisfactory within a year of the visit, Tex will send the technicians out again at no charge to you.
2. Tex knows the real secret to getting the most out of your equipment is to install it correctly in the first place! When our team installs a new system in your home, we guarantee the labor for two years. Call us if there is a problem, and Tex will be sure to get it

fixed quickly.

3. You're our top priority. If we install a new system and it goes down during the first two years, Tex will prioritize your appointment for repairs so that you don't have to wait to get up and running again.

4. Tex and Airheads HVAC always want to be there when you need us. Our Lifetime Quality Promise means that if you have trouble with your new system because we did not do our job correctly, Tex will make sure we fix any mistakes and get you going again at no charge.

*We are grateful to have earned your trust. If you have any issues with an installation or repair, Tex and the Airheads team will make it right. That's **The Penguin Promise.***

COMFORT CLUB

A one-year agreement is \$22 per month, or \$249 annually.

Regular maintenance is important on all HVAC systems—from a newly installed system to one that's original to the house. Maintenance can extend the life of your system. Plus, most manufacturers require scheduled service to keep the warranty valid.

Air conditioning maintenance benefits the consumer by lowering their operating costs, increasing their comfort level, and helping to extend the equipment's service life. Poorly maintained HVAC systems can use up to 35% more energy.*

Additional Member Benefits Include:

- Priority Service
- Reduced Service Call Rates
- 10% Repair Discount
- 5% New-Unit Discount
- Two Scheduled Tune-Ups per Year
- One Drain System Treatment
- Smoke Alarm Service
- 3-Year Inflation Protection for Monthly Contract
- 100% Money-Back Guarantee

*SOURCE: Louisiana Cooperative Extension Service at Louisiana State University teamed up with Gulf States Power.

Our Total Home Comfort Tune-Up Includes:

- 34-Point Air Conditioner Checkup
- 38-Point Heat Pump Checkup
- 29-Point Electric Heater Checkup
- 43-Point Furnace Checkup

FEEL THE DIFFERENCE

254-213-5400
airheadshvac.com

ecobee3 Lite Pro

The ecobee3 Lite Pro is an intuitive Wi-Fi thermostat that delivers unparalleled value, control, and comfort. This thermostat features free monthly reports on how much energy you've saved and remote connectivity with Wi-Fi.

\$531

Lyric T6 Wi-Fi

The T6 Pro Smart Thermostat can give you home comfort control from anywhere. Connect to the app to view and change temperature settings, program a 7-day schedule or just let the T6 respond automatically since it's designed to work with the heating stages of your existing system.

\$398

Surge Protector

Your HVAC system is the most expensive appliance in your home. It just makes sense to protect it. Install a surge protector on the air handler and the condensing unit to enjoy peace of mind.

\$372

Hard Start Kit

This hard start kit reduces the start-up time of your compressor, which can help extend the life of your compressor and reduce "light flicker" that occurs during compressor start-up.

\$311

Wet Switch

The Asurity® WS-1 Wet Switch® Flood Detector is designed to prevent flooding, damage to carpets, walls, furniture, and ceilings. Turns system off when detecting moisture due to condensate or drain leaks; includes a built-in test and reset button. One or two drops is all it takes to turn system off, alerting homeowner or service person to potential moisture problems.

\$181

Condensate Safety Switch

The condensate safety switch helps protect your largest investment: your home. This device will cut power from a system that is producing an excess of water or a system with a clogged drain line.

\$252

Kidde Smoke/CO Detector

The Kidde P3010K-CO is a 10-year, sealed battery, smoke and carbon monoxide alarm that features photoelectric and electrochemical sensing technology with Smart Hush feature. This combination alarm combines the detection capabilities of a photoelectric sensor with that of an electrochemical sensor, which is used to detect CO. When either sensor notices a potential hazard, it will communicate with the other.

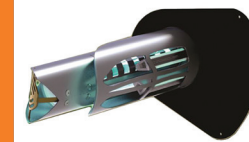

\$188

INDOOR AIR QUALITY

The U.S. Environmental Protection Agency (EPA) reports that indoor levels of airborne pollutants in some areas are two to five higher than outdoor levels. This is particularly significant if you or any family members suffer from respiratory issues such as asthma or allergies. Speak with your Airheads representative to learn more about our indoor air quality products.

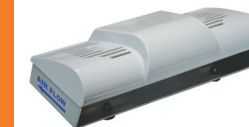

REME HALO®

The REME HALO® in-duct air purifier is the best solution for whole-house air purification. It is like bringing fresh outdoor air inside without ever having to open your windows. You can now reduce common allergy triggers such as pollen, mold spores, dander, and dust.

\$1,423

RGF Clear Sky™

The RGF Clear Sky™ Continuous Self-Cleaning Ion Generator for in-duct HVAC units was developed to produce bipolar ions in the conditioned space of homes and commercial buildings.

\$414

Carrier® 4" Filter Base

The Carrier® Performance Expandable Air Filter sets the standard in the air filtration industry. The exceptionally large surface area traps dust, pollen, molds, tobacco, smoke, grease, soot, bacteria, and animal dander to provide cleaner, fresher air free of airborne pollutants and irritants regardless of the season.

\$1,258

Côr® Energy Recovery Ventilator

The EVCRRSHB1100 provides efficient and cost-effective heat recovery during the heating season when needed most. Unlike rotary wheel heat exchangers that mix airstreams, these cross-flow—or counter-flow—heat exchangers ensure there is no mixing of the stale airstream with the fresh outdoor airstream.

Ask for bid

HALO-LED®

The HALO-LED® is the industry's first LED in-duct, whole home air purification system that is both mercury free and zero ozone compliant. The HALO-LED proactively treats every cubic inch of air conditioned space, reducing airborne and surface contaminants and pollutants through bi-polar ionization and revolutionary, patent pending, REME-LED technology.

\$1,552

Germicidal UV Light

The TT-UV24-15 Germicidal UV Light is a cutting-edge and highly effective solution designed to combat harmful microorganisms and provide a healthier, safer environment. This advanced UV light system harnesses the power of ultraviolet (UV-C) radiation to neutralize and eradicate bacteria, viruses, mold, and other pathogens present in the air and on surfaces.

\$220

Carrier® Infinity Air Purifier

The Infinity™ Air Purifier is designed for use in the return air duct of a forced-air heating, cooling, and ventilation system. It captures and kills airborne viruses, bacteria, mold spores, and allergens. It combines superior filtration efficiency MERV 15 with pathogen-killing technology to deliver maximum air purification.
